

Welcome to our community

Welcome to Wellington, I am Mr Wood – Senior Deputy Headteacher, firstly let me just say how pleased I am that you have chosen to continue your education journey with us.

Having worked here for a number of years now, I am acutely aware of the unique challenges that our Military families and their children face, and I honestly do believe you are joining a school community that really understands as well and knows what support is needed.

I am also aware that children from Military families more often than not bring wonderfully diverse life experiences to school and these should be recognised and celebrated. Positive attributes and life skills, such as the ability to adapt, to be resilient and to have the determination to be successful are often evident in our Military children, and these attributes will always be recognised and encouraged.

I hope that as you embark on this next chapter with us, that first and foremost you are very happy here, that you seize every opportunity that is presented to you and that you go on to achieve your full academic potential.

Welcome to the Wellington Academy, you have a bright future ahead of you.
