A Level Art and Design – Fine Art (Edexcel)

What is the course like?

In both AS and A2 students will be learning to sustain a project from start to finish, developing skills along the way. During the first year, Component 1 will start by focusing on building skills and confidence across a range of different media; looking at The Human Form as a starting point. Students then create a personal response to this theme where they will work more independently. During the second year students will create their own theme and decide the direction that their work will take, with guidance from the teacher. Lessons will be skills based at the start, focusing on accurate recording using a range of materials. As students being to work more independently, workshops can be tailored to their interests. An externally set task is released by the exam board in early February for both AS and A2. Students are able to choose a theme from this that best fits their interest and skill set. Regular tutorials ensure that students get the best out of the course.
